

GRADING AND GRADE-POINT AVERAGE

a course is repeated, the grade from the most recent enrollment in the course is the grade included in the student's grade-point average. See each academic program for procedures to determine grade-point average in program/departamental majors.

NC	not computed	Pass/No Credit

The mark F means failing work; the mark NA means the student never attended the course; the mark SA means the student stopped attending the course. These marks are NOT computed in the grade-point average and are equivalent to withdrawal.

A failed course must be repeated at Hiram College if the student is to receive credit in the grade-point average. Successful repetition of the work does not remove the original grade from the transcript but does remove the F from the student's grade-point average. The grade earned from the most recent enrollment in a repeated course is computed in the student's grade-point average. (See Course Repeat Policy (<https://catalog.hiram.edu/undergraduate/student-academic-responsibilities-performance/course-repeat-policy/>) for additional information)

The mark P indicates passing work (grade of C- or higher) without specific reference to quality; it is not included in the grade-point average. The grades NC (no credit), AU (audit), ANC (no credit in audit course), and I (incomplete) are not included in the grade-point average. The NR (grade not reported) is not included in the grade-point average and is only assigned by the registrar's office in cases where no grade has been reported by faculty.

Grade-Point Average

To determine a student's grade-point average, the total number of points earned is divided by the total number of graded hours attempted, which are also known as GPA hours. Thus, a student taking 30 hours of work and earning 90 points would have a grade-point average of 3.00. Grades of W, P, NC, ANC, I, and NR are not included in this computation. When
