

# LEARNING TECHNOLOGIES

---

**Brittany Jackson, Ed.D.**

Online and Learning Strategies Manager

**Garrett Munro, M.A.**

Manager of Integrative Teaching and Learning Technology

Learning Technologies is available to assist students with the technology they utilize in their classrooms, like their iPads, Moodle, Digication/ePortfolio, Zoom, and more. Learning Technologies offers regular sessions and learning opportunities around topics of technology for students each year and teaches courses related to technology, such as POPS10101: Academic Technology Skills, a 1-credit hour course that will help students learn how best to utilize the technology available to them or POPS10101: So, You Have an iPad, Now What?
