

# CREDITS AND COURSE NUMBERING

---

## Credits

Academic credit is calculated in semester hours. Thirty credit hours constitute normal progress for one academic year; 120 semester hours of academic credit are required for graduation. Most courses carry three or four hours of credit. Many of the sciences, nursing, and a few other program courses meet for additional laboratory, clinical, or other special instruction.

## Course Numbering

All courses have a five-digit number in addition to the subject for identification.

10000 - 19900 first-year/freshman-level courses

20000 - 29900 first-year/freshman and sophomore-level courses

30000 - 39900 sophomore through senior-level courses

40000 - 49900 junior and senior-level courses.

May vary across programs.
